ABSTRACT EXPRESSIONIST ARTIST /  
PATTERN DESIGNER

# ABOUT ME

I am a multidisciplinary Abstract Expressionist Artist, for me Art is not only a form of self-expression but also a way to channel my intuition from the divine source. I have a background in screen printing and studied Surface Design for Interior Design at University of the Arts London (UAL). Art has always been my first love, a source of joy, and one of my many passions.

As an abstract artist, I am skilled in multiple disciplines that blend creativity and craftsmanship. My work includes:

- Hand-drawing tribal-style patterns and designs using pen and ink, creating intricate and dynamic compositions that explore cultural motifs and abstract forms.
- Traditional screen printing, where I design and print unique pieces with a focus on texture, color, and form.
- Glasswork, including the creation of custom glass tiles for kitchens and bathrooms, combining functional art with aesthetic beauty.
- Holistic Sip & Paint facilitation, guiding individuals through self-expression and creativity in a relaxed, community-focused environment, encouraging personal growth and artistic exploration.

These diverse practices allow me to merge traditional techniques with contemporary artistic expressions, fostering both individual and collective creativity.
